

# 430-21D

## 4-WHEEL DRIVE ARTICULATING TRACTOR

What makes the 430-21D a popular Steiner®? Start with the features that have established our reputation for excellence: full-time 4-wheel drive, articulated frame, hydrostatic transmission, and power steering. This unit boasts a 21HP 3 cylinder Kubota® Diesel liquid-cooled engine. Not only do you get a high torque value, long life and low fuel consumption will keep your Steiner 430-21D working for years. Mix in comfort features like our ergonomically designed deluxe seat. Add the Quick-Hitch™ attachments you need, from mowers and blades to scoops and blowers. Top it all off with legendary Steiner longevity, and you have the power and versatility that will drive your passion for this machine.

- 4-wheel drive
- Articulated frame
- Hydrostatic hand control forward/reverse
- Quick-Hitch attachment
- Illuminated sealed instrument panel
- Auxiliary hydraulic quick couplers

Powered by  
**Kubota**

### 21HP DIESEL

The tough 430-21D is equipped with a 3 cylinder liquid-cooled 21HP Kubota® diesel engine that offers high power density, is compact and lightweight, and has low noise and vibration. It offers one-side maintenance with virtually trouble-free performance.

### ARTICULATED FRAME

The Steiner 430 series tractor has an articulated frame that allows the tractor to keep traction on unusually rough terrain since the flexibility of the frame keeps constant weight on all four tires at all times, unlike a rigid frame tractor.

### 4-WHEEL DRIVE

The Steiner 430 series tractor comes standard with a constant 4-wheel drive system that is capable of being shifted into high range for normal terrain or low range for severe terrain, making it a leader in its class in traction.

## ATTACHMENTS & ACCESSORIES

We developed the Steiner® turf tractor to be a brilliant performer on yards, grounds and estates. But routine maintenance tasks are only the beginning of a Steiner's many time- and effort-saving capabilities. The way we see it, a Steiner can do nearly anything you need it to do. That's why we've developed a long and growing list of attachments that can take the place of more than two dozen single purpose machines. The Steiner 430 series tractor can be set up to utilize a wide selection of attachments and accessories. This complete attachment and accessories lineup is what has allowed the Steiner tractor to enjoy being the original and most versatile articulated 4-wheel drive garden tractor in the market today after 33 great years.

## QUICK-HITCH™ SYSTEM

Steiner's Quick-Hitch™ System allows you to easily switch to any attachment in five minutes or less. Making the transition from one attachment to another is as easy as 1, 2, 3. Your Steiner can become nearly any kind of maintenance machine you can imagine. Sweep, grade, scoop, till, cut, aerate and more. Like everything else that carries the Steiner name, you'll find all of our attachments easy to use, hard working and built to last... season after season.

### SWITCH ATTACHMENTS IN FIVE MINUTES OR LESS!

1. Drive forward until the hitch arms engage the attachment arm pins.
2. Release the spring-loaded lever with one hand.
3. Install the belt drive and go to work.

## SPECIFICATIONS

*Subject to change without notice.*

### DIMENSIONS

Overall width.....	44"
Overall length.....	64"
Overall height.....	46"
Wheelbase.....	38"
Turn radius.....	46"
Weight.....	1000 lbs.
