

THE NEW MORE PRODUCTIVE FLEX DECK MOWER *by Lastec®*

The Steiner Flex Deck mower delivers productivity and a professional cut on flat, uneven, and sloped terrain of up to 30-degrees when mounted on the Steiner 450 tractor with dual wheels. The power of the 450 tractor and the new Flex Deck heavy-duty belt drive provides stronger torque and effective blade speeds to power through turf with a quality cut and clean directional side discharge. Five large front casters and two rear suspension rollers guide four independent 21" decks to follow the contour of undulating turf with reduced potential for scalping. Whether mowing around bunkers, tee boxes, banks, hazards or fences, the Steiner Flex Deck powers through to get the job done and done right!

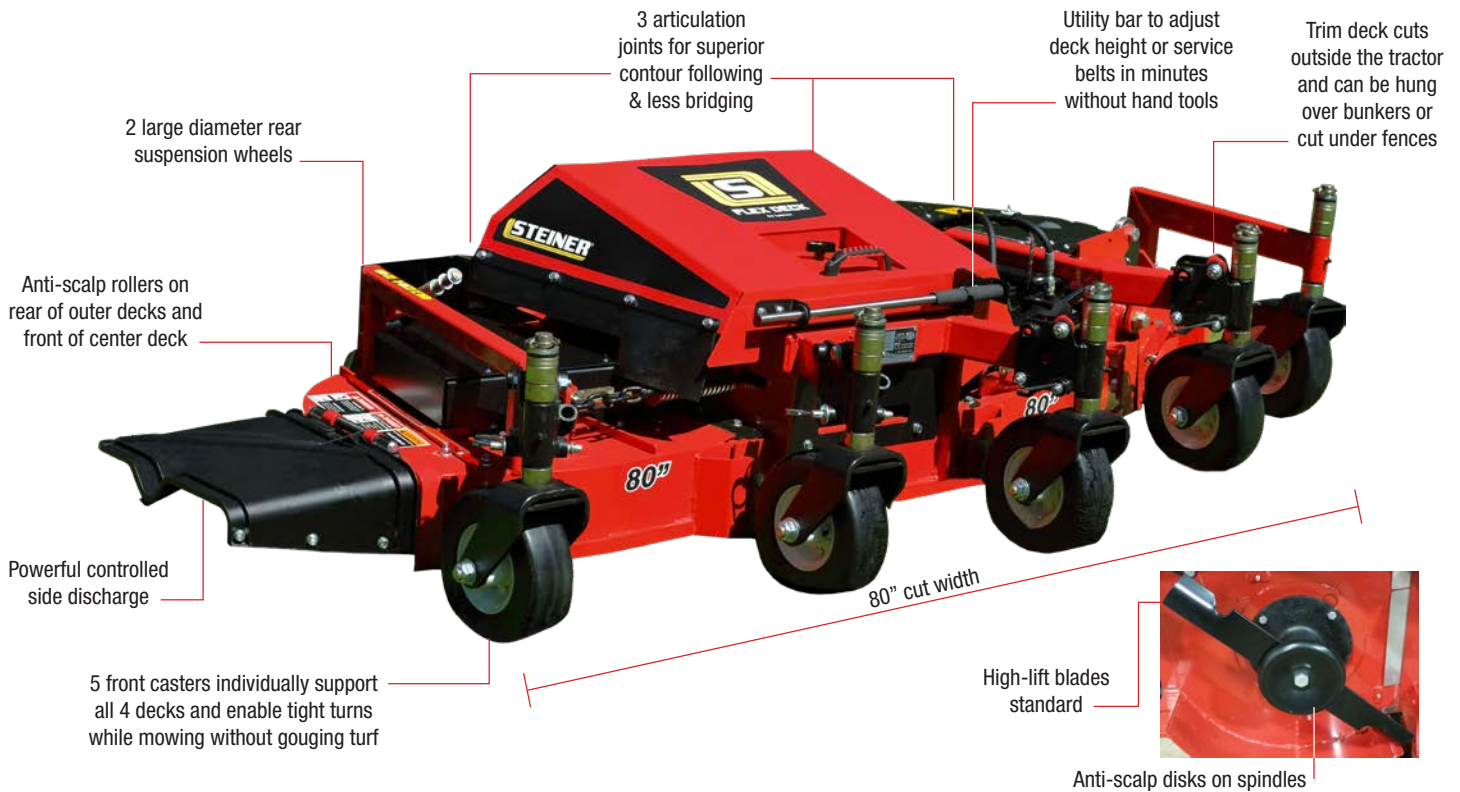

Increased Discharge

Great on Slopes

Contours to Undulating Turf

SPECIFICATIONS:

Overall Cutting Width:	80"
Transport Width:	70" (with trim side deck raised)
Deck Configuration:	4 decks with four 21" high-lift blades (1" overlap between decks)
Trim Side Deck:	20" offset with hydraulic lift
Spindles:	Cast steel with sealed ball bearings
