

FOR IMMEDIATE RELEASE

## The All-New Steiner Rough Cut Mower Attachment

### Highlights:

- Steiner introduces new Rough Cut Mower attachment for Steiner 440 tractor
- Heavy-duty attachment designed to clear overgrown brush up to 1.5 inches in diameter
- Optional caster wheel kit for mowing uneven terrain

**JOHNSON CREEK, Wis.** (June XX, 2014) – For overgrown brush and tough-to-mow wooded areas, [Steiner®](#), manufacturer of compact, highly maneuverable grounds care tractors and heavy-duty attachments, has released a new and improved Rough Cut Mower attachment for the Steiner 440 articulating tractor.

“Cutting through heavy brush, tall grass and thick vegetation is difficult with most mowing attachments, but the new Rough Cut Mower makes quick work of most woody areas,” says Matt Donohue, sales and product manager at Steiner. “By attaching the Rough Cut Mower to our 440 tractor, clearing overgrown areas will be no problem, no matter the lay of the land.”

The Steiner Rough Cut Mower is built to evenly cut dense and overgrown grass, weeds, brush and brambles up to 1.5 inches in diameter. With a height of cut ranging from 3.75 inches to 6 inches, a 71.5-inch cut width and three double-sided 24-inch-long, 5/16-inch-thick blades designed to rotate in the same direction, the Steiner Rough Cut Mower provides powerful cutting and debris clearing performance in heavily overgrown woody areas. A rear discharge system with standard baffles and flexible front and rear shields protects operators. For taller or thicker grasses, owners can install a counter-clockwise rotation kit to enable the outer blade to rotate in the opposite direction of the other two blades, which provides a better finish when powering through tall, grassy fields and pastures.

To further improve cutting on difficult or uneven surfaces, the Steiner Rough Cut Mower features durable contoured skid shoes designed to let the deck evenly cut all types of terrain without damaging the ground or the attachment, and an optional caster wheel kit allows the deck to follow undulating landscape and maintain a consistent cut. Heavy-duty helper springs allow owners to easily flip the deck up for servicing and repair.

The Steiner Rough Cut Mower comes with a two-year parts and labor warranty.
